

PBIA Speakers Bureau

Promoting the Vision of Affordable, Ubiquitous Broadband Services

The Voice of an Industry

The Personal Broadband Industry Association is working to identify and solve the roadblocks to the creation and success of new mobile and fixed broadband solutions that open new markets, enable new usage paradigms, and provide new competitive choices for consumers. The Personal Broadband Industry Association provides a unified voice for its member companies and organizations and is committed to rapidly creating a marketplace for ubiquitous, affordable broadband technologies and services.

The PBIA Speakers Bureau

The PBIA Speakers Bureau has been created to provide organizations, institutions, conference and meeting organizers and others with pivotal industry experts who can address the issues, opportunities and key market, financial and technological metrics that are vital to the growth and success of the market for Personal Broadband services. The individuals engaged in the PBIA Speakers Bureau include industry luminaries, technology gurus, market authorities and operational experts with speaking experience and significant industry draw.

PBIA Speakers Bureau topics include:

- Sustainable Services Economics: Creating Profitable Services
- The Market for Personal Broadband
- Overcoming Funding Roadblocks for New Service Deployment
- Understanding New Wireless Technologies: The "A-B-G's"
- Enterprise Requirements for Personal Broadband Services
- Broadband for the Masses: New Paradigms for Consumer Products and Services
- Personal Broadband and Education

PBIA Speakers Bureau

Request Speakers For Your Event

The PBIA Speakers Bureau can provide experts to speak about every aspect of the Personal Broadband industry. To request a speaker for your event, please complete the PBIA Speaker Request form. The PBIA Speakers Bureau will make every effort to provide speakers for appropriate venues and topics.

Please request speakers *at least* eight weeks prior to your event. This consideration allows adequate notice for our speakers' work and travel schedules and preparation time for presentations, materials and photos.

Join the PBIA Speakers Bureau

The PBIA welcomes member and non-member advisors to join its Speakers Bureau. The PBIA Speakers Bureau includes top industry experts in the broadband and wireless industries and creates opportunities to educate, discuss and debate the issues surrounding market growth and success.

PBIA Speakers Bureau members are invited to PBIA-hosted events as well as external conferences and events. The PBIA has partnerships with a number of industry organizations such as the Consumer Electronics Association and the Telecommunications Industry Association, and provides these organizations with featured topics and speakers.

To join the PBIA Speakers Bureau, please complete and submit the PBIA Speakers Bureau Membership form.
